## Vienna International School New Parents Website Consent Form

Dear Parents

We want to make sure that the world sees our school on-line as we see it right here ..... bright and colourful and well resourced with students engaged in their work and enjoying the full range of educational opportunities offered at VIS.

There are two sections on the school website. The first section is open to the public. The next section contains newsletters and much other information. This Password Protected section is for members of the VIS community only.

We very much hope that you will agree to photographs of your child participating in school activities appearing in both the Public and the Password Protected sections of the site. Photographs will not be included without your permission.

If you are in agreement, please complete and return the slip below.

Thank you for your support and co-operation on this important project.

Peter J.M. Murphy  
Director
