

Thursday 29th November 08:45-10:00

Language Acquisition in a Multilingual Setting

Thursday 29th November 8.45 - 10.00am
Secondary Aula

At VIS we view language as the foundation of all learning. Whether in maths, art, music or science, language is the single most important tool for developing knowledge and understanding. With a friendly, hands-on approach, this workshop will offer practical advice and strategies to support your child's learning journey in both English as an Additional Language (ELA) and Mother Tongue.

Workshop for Primary School Parents
